TO THE SHAREHOLDERS:

NOTICE IS HEREBY GIVEN that the Annual Meeting of Shareholders (“*Annual Meeting*”) of Trimble Navigation Limited (the “*Company*”) will be held at 945 Stewart Drive, Sunnyvale, California 94085 in the Orion Conference Room, on Thursday, May 8, 2014, at 5:30 p.m. local time, for the following purposes:

1. To elect directors to serve for the ensuing year and until their successors are elected.
2. To hold an advisory vote on approving the compensation for our Named Executive Officers.
3. To ratify the appointment of Ernst & Young LLP as the independent auditor of the Company for the current fiscal year ending January 2, 2015.

The foregoing items of business are more fully described in the Proxy Statement accompanying this notice. Only shareholders of record at the close of business on March 11, 2014, will be entitled to notice of and to vote at the Annual Meeting or any adjournment thereof.

All shareholders are cordially invited to attend the Annual Meeting in person. However, to ensure your representation at the meeting, you are urged to vote via the Internet or by telephone or, if you requested to receive printed proxy materials, by mailing a proxy, in accordance with the detailed instructions on your proxy card. Any shareholder attending the meeting may vote in person even if such shareholder previously voted via the Internet, by telephone or by returning a proxy.

We have decided to use the U.S. Securities and Exchange Commission’s “notice and access” rules that allow companies to furnish proxy materials to their shareholders primarily over the Internet. This means most of our shareholders will receive only a notice containing instructions on how to access the proxy materials over the Internet and vote online. We believe that this process should expedite shareholders’ receipt of proxy materials, lower the costs of our Annual Meeting, and help reduce the environmental impact of our Annual Meeting.

On approximately March 24, 2014, we mailed to our shareholders (other than those who previously requested electronic or paper delivery) a notice of internet availability of proxy materials (“*Notice*”) containing instructions on how to access our proxy materials, including our proxy statement and our annual report. The Notice also included instructions on how to receive a paper copy of our Annual Meeting materials, including the notice of Annual Meeting, proxy statement and proxy card. If you received your Annual Meeting materials by mail, the notice of Annual Meeting, proxy statement, and proxy card from our Board of Directors were enclosed. If you received your Annual Meeting materials via e-mail, the e-mail contained voting instructions and links to the annual report and the proxy statement on the Internet, which are both available at <http://investor.trimble.com/annuals.cfm>.

INTERNET AVAILABILITY OF PROXY MATERIALS

Under the “notice and access” rules adopted by the SEC, we are furnishing proxy materials to our shareholders primarily via the Internet, instead of mailing printed copies of those materials to each shareholder. As a result, on or about March 24, 2014, we mailed our shareholders a notice of internet availability of proxy materials (“*Notice*”) containing instructions on how to access our proxy materials, including our proxy statement and our annual report. The Notice also instructs you on how to access your proxy card to vote through the Internet or by telephone. The Notice is not a proxy card and cannot be used to vote your shares.

INFORMATION CONCERNING SOLICITATION AND VOTING

Record Date and Shares Outstanding

Shareholders of record at the close of business on March 11, 2014 (the “**Record Date**”) are entitled to notice of, and to vote at, the Annual Meeting. At the Record Date, the Company had issued and outstanding 260,746,444 shares of common stock, without par value (“**Common Stock**”).

Revocability of Proxies

Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time before its use by delivering to the Company (Attention: Corporate Secretary) a written notice of revocation or a duly executed proxy bearing a later date (including a proxy by telephone or over the Internet) or by attending the meeting and voting in person. Attendance at the meeting will not, by itself, revoke a proxy.

Voting

Each share of Common Stock outstanding on the Record Date is entitled to one vote on all matters, and shareholders may cumulate such votes in the election of directors, as described below. An automated system administered by the Company’s agent tabulates the votes.

Abstentions and broker non-votes are each included in the determination of the number of shares present and voting at the Annual Meeting and the presence or absence of a quorum. The required quorum is a majority of the shares outstanding on the Record Date. Abstentions and broker non-votes have no effect on Item I (Election of Directors). In the case of each of the other items, abstentions and broker non-votes have no effect on determining whether the affirmative vote constitutes a majority of the shares present and voting at the Annual Meeting in person or by proxy. Approval of these other items also requires the affirmative vote of a majority of the shares necessary to constitute a quorum, however, and therefore abstentions and broker non-votes could prevent the approval of these other items because they do not count as affirmative votes.

A “broker non-vote” occurs when a nominee holding shares for a beneficial owner does not vote on a particular item because the nominee does not have discretionary voting power with respect to that item and has not received instructions with respect to that item from the beneficial owner, despite voting on at least one other item for which it does have discretionary authority or for which it has received instructions. If your shares are held by your broker, bank or other agent as your nominee (that is, in “street name”), you will need to obtain a proxy form from the institution that holds your shares and follow the instructions included on that form regarding how to instruct your broker, bank or other agent to vote your shares. If you do not give instructions, under the rules that govern brokers who are record owners of shares that are held in street name for the beneficial owners of the shares, brokers who do not receive voting instructions from their clients have the discretion to vote uninstructed shares on routine matters but have no discretion to vote them on non-routine matters. Items I and II are non-routine matters. Item III is a routine matter.

Voting via the Internet or by Telephone

Shareholders may vote by submitting proxies electronically either via the Internet or by telephone or, if they request paper copies of the proxy materials, they may complete and submit a paper version of the proxy card. Please note that there are separate arrangements for voting via the Internet and by telephone depending on whether shares are registered in the Company’s stock records directly in a shareholder’s name or whether shares are held in the name of a brokerage firm or bank. Detailed electronic voting instructions can be found on the Notice mailed to each shareholder.

In order to allow individual shareholders to vote their shares and to confirm that their instructions have been properly recorded, the Internet and telephone voting procedures have been designed to authenticate each shareholder's identity. Shareholders voting via the Internet should be aware that there may be costs associated with electronic access, such as usage charges from Internet access providers and telephone companies that will be borne solely by the individual shareholder.

Voting in Person

Registered Shareholders

If your shares are registered directly in your name with our transfer agent, American Stock Transfer & Trust Co., Inc., you are considered to be the registered shareholder with respect to those shares. A Notice for registered shareholders was mailed directly to you by our mailing agent, Broadridge Investor Communications, Inc. Registered shareholders have the right to vote in person at the meeting.

Beneficial Shareholders

If your shares are held in a brokerage account or by another nominee, you are considered to be a beneficial shareholder of those shares. A Notice for beneficial shareholders was forwarded to you together with voting instructions. In order to vote in person at the annual meeting, beneficial shareholders must obtain a "legal proxy" from the broker, trustee or nominee that holds their shares. Without a legal proxy, beneficial owners will not be allowed to vote in person at the Annual Meeting.

Solicitation of Proxies

The entire cost of this proxy solicitation will be borne by the Company. The Company has retained the services of Morrow & Co., LLC, 470 West Ave., Stamford, CT 06902, to solicit proxies, for which services the Company has agreed to pay approximately \$6,500. In addition, the Company will also reimburse certain out-of-pocket expenses in connection with such proxy solicitation. The Company may reimburse brokerage firms and other persons representing beneficial owners of shares for their expenses in forwarding soliciting materials to such beneficial owners. Proxies may also be solicited by certain of the Company's directors, officers, and regular employees, without additional compensation, personally or by telephone, or facsimile.

Deadline for Receipt of Shareholder Proposals for 2015 Annual Meeting

Shareholders are entitled to present proposals for action at future shareholder meetings of the Company if they comply with the requirements of the appropriate proxy rules and regulations promulgated by the SEC.

Proposals of shareholders which are intended to be considered for inclusion in the Company's proxy statement and form of proxy related to the Company's 2015 Annual Meeting of Shareholders must be received by the Company at its principal executive offices (Attn: Corporate Secretary—Shareholder Proposals, Trimble Navigation Limited at 935 Stewart Drive, Sunnyvale, California 94085) no later than November 24, 2014. Shareholders interested in submitting such a proposal are advised to retain knowledgeable legal counsel with regard to the detailed requirements of the applicable securities laws. The timely submission of a shareholder proposal to the Company does not guarantee that it will be included in the Company's applicable proxy statement.

If the Company is not notified at its principal executive offices of a shareholder proposal at least 45 days prior to the one year anniversary of the mailing of the Notice, which is February 7, 2015, then such proposal shall be deemed "untimely" and, therefore, the proxy holders for the Company's

2015 Annual Meeting of Shareholders will have the discretionary authority to vote against any such shareholder proposal if it is properly raised at such annual meeting, even though such shareholder proposal is not discussed in the Company's proxy statement related to that shareholder meeting.

The proxy card attached or enclosed with this proxy statement, to be used in connection with the 2014 Annual Meeting, grants the proxy holder discretionary authority to vote on any matter otherwise properly raised at such Annual Meeting. The Company presently intends to use a similar form of proxy card for next year's Annual Meeting of Shareholders.

Vote Required

The seven nominees receiving the highest number of affirmative votes of the shares entitled to be voted shall be elected as directors. Please note that proxies may not be voted for greater than seven nominees. Every shareholder voting for the election of directors may cumulate such shareholder's votes and give one candidate a number of votes equal to the number of directors to be elected multiplied by the number of shares held by the shareholder as of the Record Date, or distribute such shareholder's votes on the same principle among as many candidates as the shareholder may select, provided that votes cannot be cast for more than the number of directors to be elected. However, no shareholder shall be entitled to cumulate votes unless the candidate's name has been placed in nomination prior to the voting and the shareholder has given notice at the meeting of the intention to cumulate the shareholder's votes in the proxy card or ballot. Beneficial shareholders should direct their broker, trustee or other nominee on how to cumulate such shareholder's votes. Abstentions and broker non-votes will be counted only for purposes of determining whether a quorum is present, but they will not be taken into account in determining the outcome of the election of directors.

Unless otherwise directed, the proxy holders will vote the proxies received by them for the seven nominees named above. In the event that any such nominee is unable or declines to serve as a director at the time of the Annual Meeting, the proxies will be voted for any nominee who shall be designated by the present Board of Directors to fill the vacancy. In the event that additional persons are nominated for election as directors, the proxy holders intend to vote all proxies received by them in such a manner as will ensure the election of as many of the nominees listed above as possible. In such event, the specific nominees to be voted for will be determined by the proxy holders. As of the date of this proxy statement, the Board of Directors has no reason to believe that any nominee will be unable or will decline to serve as a director. The directors elected will hold office until the next Annual Meeting of Shareholders and until their successors are duly elected and qualified.

Recommendation of the Board of Directors

The Board of Directors recommends that shareholders vote FOR the election of the above-named persons to the Board of Directors of the Company.

ITEM II
ADVISORY VOTE ON APPROVING THE COMPENSATION FOR
OUR NAMED EXECUTIVE OFFICERS

This proposal, commonly known as a “Say on Pay” proposal, provides our shareholders with the opportunity to cast an advisory vote on the compensation of the Company’s Named Executive Officers, as disclosed in this proxy statement. This proposal gives the Company’s shareholders the opportunity to approve, reject, or abstain from voting, with respect to our executive compensation programs and policies and the compensation paid to the Named Executive Officers.

The Say on Pay vote is a non-binding advisory vote on the compensation of the Company’s Named Executive Officers, as described in the Compensation Discussion and Analysis section, the tabular disclosure regarding such compensation, and the accompanying narrative disclosure. The Say on Pay vote on executive compensation is not a vote on the Company’s general compensation policies, compensation of the Company’s Board of Directors, or the Company’s compensation policies as they relate to risk management.

The Say on Pay vote allows our shareholders to express their opinions regarding the decisions of the Compensation Committee with respect to the 2013 compensation of the Named Executive Officers. Because the Say on Pay vote is advisory in nature, it will not affect any compensation already paid or awarded to any Named Executive Officer, nor modify any terms of our existing compensation plans or awards. In addition, the Say on Pay vote will not be binding on or overrule any decisions by the Board of Directors; it will not create or imply any additional fiduciary duty on the part of the Board of Directors.

The Company is providing its shareholders with the opportunity to cast an advisory Say on Pay vote every year, until the next advisory vote on the frequency of such votes.

At the Company’s 2013 Annual Meeting of Shareholders, approximately 92% of the votes cast were in favor of the Say on Pay vote and our executive compensation program. The Board of Directors and Compensation Committee reviewed the results of the Say on Pay vote and in light of the substantial approval from shareholders of our executive compensation program, did not make any significant changes to the Company’s executive compensation program as a result of such favorable Say on Pay vote.

Your advisory vote will serve as an additional tool to help guide the Board of Directors and the Compensation Committee in continuing to improve the alignment of the Company’s executive compensation programs with the interests of the Company and its shareholders. The Compensation Committee and the Board of Directors take into account the outcome of the vote as a part of their considerations in determining future compensation arrangements for our Named Executive Officers.

The Company and the Board of Directors believe that our compensation policies and practices for our Named Executive Officers are aligned with the long term interests of our shareholders because our policies emphasize pay for performance, and our mix of short and long term incentives provide a balance between the Company’s short-term goals and long term performance. As such, the Board of Directors recommends a vote “For” the advisory approval of our compensation policies and practices as disclosed in this proxy statement.

Vote Required

Advisory approval of the compensation of our Named Executive Officers requires the affirmative vote of the holders of a majority of the shares present at the Annual Meeting in person or by proxy and entitled to vote as of the Record Date.

Recommendation of the Board of Directors

The Company's Board of Directors recommends a vote FOR the approval of the compensation of our Named Executive Officers, as disclosed in this proxy statement.

Audit Committee Pre-Approval of Policies and Procedures

The Audit Committee is responsible for appointing, setting compensation, and overseeing the work of the independent auditor. The Audit Committee has established a pre-approval procedure for all audit and permissible non-audit services to be performed by Ernst & Young. The pre-approval policy requires that requests for services by the independent auditor be submitted to the Company’s chief financial officer (“*CFO*”) for review and approval. Any requests that are approved by the CFO are then aggregated and submitted to the Audit Committee for approval of services at a meeting of the Audit Committee. Requests may be made with respect to either specific services or a type of service

for predictable or recurring services. All permissible non-audit services performed by Ernst & Young were approved by the Audit Committee.

The Audit Committee has concluded that the provision of the non-audit services listed above is compatible with maintaining Ernst & Young's independence.

Vote Required

Ratification of the appointment of Ernst & Young as the Company's independent auditor for the current fiscal year ending January 2, 2015, will require the affirmative vote of the holders of a majority of the shares present and voting at the Annual Meeting either in person or by proxy. In the event that such ratification by the shareholders is not obtained, the Audit Committee and the Board of Directors will reconsider such selection.

Recommendation of the Board of Directors

The Company's Board of Directors recommends a vote FOR the ratification of the appointment of Ernst & Young LLP as the independent auditors for the Company for the current fiscal year ending January 2, 2015.

BOARD MEETINGS AND COMMITTEES; DIRECTOR INDEPENDENCE

The Board of Directors held 5 meetings during the fiscal year ended January 3, 2014. Except for Mr. Vande Steeg, no director attended fewer than 75% of the aggregate of all the meetings of the Board of Directors and the meetings of the committees, if any, upon which such director also served during the fiscal year ended January 3, 2014. It is the Company's policy to encourage directors to attend the Annual Meeting. Except for Mr. Vande Steeg, all of the current members of the Board of Directors attended the 2013 Annual Meeting. Each of the directors, except for Mr. Berglund, are independent directors as defined by Rule 5605(a)(2) of the Nasdaq Marketplace Rules.

Shareholder Communications with Directors

The Board of Directors has established a process to receive communications from shareholders. Shareholders of the Company may communicate with one or more of the Company's directors (including any board committee or group of directors) by mail in care of Board of Directors, Trimble Navigation Limited, 935 Stewart Drive, Sunnyvale, California 94085. Such communications should specify the intended recipient or recipients.

Board Leadership Structure; Oversight and Risk Management

The Company currently separates the positions of chief executive officer and chairman of the board. Our chairman of the board is responsible for setting the agenda for each Board meeting, in consultation with the chief executive officer, and presiding at executive sessions. The chairman of the board is also responsible for recommending committee assignments to the Nominating Committee. Our chief executive officer is responsible for the day-to-day operations of the Company.

The Board of Directors has overall responsibility for the oversight of risk management for the Company, and it exercises this oversight through committees and regular engagement with the Company's senior management. The Audit Committee has oversight of the Company's financial matters, internal controls, financial reporting and internal investigations relating to financial misconduct. The Compensation Committee has oversight of our compensation policies and practices, our Nominating Committee is responsible for the independence and qualification of the board members, and our Governance Committee is responsible for the Company's corporate governance principles. The committees report their activities back to the Board of Directors. In addition, members of the Company's senior management attend meetings of the Board of Directors to discuss strategic planning and risks and opportunities for the Company's business areas, in addition to answering any questions that the Board of Directors may raise.

Audit Committee

The Board of Directors has a separately-designated, standing Audit Committee, established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The Audit Committee is governed by a charter, a current copy of which is available on our corporate website at <http://investor.trimble.com/documents.cfm>.

The current members of the Audit Committee are directors Hart, Peek, and Vande Steeg, and director Hart currently serves as the committee chairman. The Audit Committee held 8 meetings during the 2013 fiscal year. The purpose of the Audit Committee is to make such examinations as are necessary to monitor the corporate financial reporting and the internal and external audits of the Company, to provide to the Board of Directors the results of its examinations and recommendations derived therefrom, to outline to the Board of Directors improvements made, or to be made, in internal accounting controls, to nominate independent auditors, and to provide such additional information as

the committee may deem necessary to make the Board of Directors aware of significant financial matters which require the Board's attention.

All Audit Committee members are independent directors as defined by applicable Nasdaq Marketplace Rules and listing standards.

All members of the Audit Committee are financially sophisticated and are able to read and understand fundamental financial statements, including a balance sheet, income statement and cash flow statement. The Board of Directors has determined that director Hart is a "financial expert" as that term is defined in the rules promulgated by the SEC. In addition to serving as CEO and CFO of a venture capital firm, director Hart has reviewed and analyzed numerous companies' financial statements in managing venture capital investment funds for more than 20 years. During his career, he has served on the board of directors of numerous public and privately held companies.

Compensation Committee

The Board of Directors has a standing Compensation Committee, comprised of directors Goodrich, Nersesian and Vande Steeg. Director Vande Steeg currently serves as the committee chairman. All Compensation Committee members are independent as defined by applicable Nasdaq Marketplace Rules and listing standards. The Compensation Committee is governed by a charter, a current copy of which is available on our corporate website at <http://investor.trimble.com/documents.cfm>. The Compensation Committee held 4 meetings during the 2013 fiscal year. The purpose of the Compensation Committee is to review and make recommendations to the full Board of Directors with respect to all forms of compensation to be paid or provided to the Company's executive officers. See "Compensation Discussion and Analysis."

Governance Committee

As of January 2011, the Board of Directors established a standing Governance Committee ("**Governance Committee**"). The current members of the Governance Committee are directors Goodrich and Janow. Director Janow serves as committee chairman. The Governance Committee is governed by a charter that is posted on the Company's website at <http://investor.trimble.com/documents.cfm>. The purpose of the Governance Committee is to develop and recommend to the Board a set of corporate governance principles applicable to the Company; and to oversee the implementation of these principles. The Governance Committee met once during the 2013 fiscal year.

Nominating Committee

As of January 2011, the Board of Directors established a standing Nominating Committee ("**Nominating Committee**"). The current members of the Nominating Committee are directors Johansson, Hart and Nersesian. Director Johansson serves as committee chairman. The Nominating Committee is governed by a charter that is posted on the Company's website at <http://investor.trimble.com/documents.cfm>. The purpose of the Nominating Committee is to recommend to the Board of Directors individuals qualified to serve as directors of the Company, and on committees, and to advise the Board of Directors with respect to composition, procedures and committees. The Nominating Committee met once during the 2013 fiscal year.

The Nominating Committee will consider director candidates recommended by shareholders. In considering candidates submitted by shareholders, the Nominating Committee will take into consideration the needs of the Board of Directors and the qualifications of the candidate. To have a

candidate be considered by the Nominating Committee, a shareholder must submit the recommendation in writing and the recommendation must include the following information:

- The name of the shareholder and evidence of the shareholder's ownership of Company shares, including the number of shares owned and the length of time of ownership; and
- The name of the candidate, the candidate's resume or a listing of his or her qualifications to be a director of the Company and the candidate's consent to be named as a director if selected by the Nominating Committee and nominated by the Board of Directors.

The shareholder recommendation and information described above must be sent to the Committee Chairman in care of the Corporate Secretary at Trimble Navigation Limited, 935 Stewart Drive, Sunnyvale, California 94085 and must be received by the Corporate Secretary not less than 120 days prior to the anniversary date of the Company's most recent proxy statement issued in connection with the Annual Meeting of Shareholders.

The Nominating Committee believes that the minimum qualifications for serving as a director of the Company are that a nominee demonstrate possession of such knowledge, experience, skills, expertise, international background, personal and professional integrity, character, business judgment, time availability in light of other commitments, dedication, potential conflicts of interest and diversity so as to enhance the Board of Directors' ability to manage and direct the affairs and business of the Company, including, when applicable, to enhance the ability of committees of the Board of Directors to fulfill their duties and/or to satisfy any independence requirements imposed by law, regulation or Nasdaq listing requirement.

The Nominating Committee identifies potential nominees by asking current directors and executive officers to notify the Nominating Committee if they become aware of persons, meeting the criteria described above, who have had a change in circumstances that might make them available to serve on the Board of Directors. The Nominating Committee also, from time to time, may engage firms that specialize in identifying director candidates and pay any corresponding fees for such services. As described above, the Nominating Committee will also consider candidates recommended by shareholders.

Once a person has been identified by the Nominating Committee as a potential candidate, the Nominating Committee may collect and review publicly available information regarding the candidate to assess whether the candidate should be considered further. If the Nominating Committee determines that the candidate warrants further consideration, the chairman or another member of the Nominating Committee contacts the candidate. Generally, if the person expresses a willingness to be considered and to serve on the Board of Directors, the Nominating Committee requests information from the candidate, reviews the candidate's accomplishments and qualifications, including in light of any other candidates that the Nominating Committee might be considering, and conducts one or more interviews with the candidate. In certain instances, Nominating Committee members may contact one or more references provided by the candidate or may contact other members of the business community or other persons that may have greater first-hand knowledge of the candidate's accomplishments. The Committee's evaluation process does not vary based on whether or not a candidate is recommended by a shareholder.

NON-EMPLOYEE DIRECTOR COMPENSATION

Non-employee directors received compensation according to the terms of the Board of Directors Compensation Policy (“*Board Compensation Policy*”). The description of the Board Compensation Policy below is qualified in its entirety by the text of the Board Compensation Policy, which was filed as exhibit 10.2 to the Company’s Quarterly Report on Form 10-Q for the quarter ending June 28, 2013.

The current Board Compensation Policy was adopted on May 1, 2013. Under the Board Compensation Policy, each non-employee director receives an annual cash retainer of \$60,000, payable on a quarterly basis, for the period starting July 1 and ending June 30 of each year.

A portion of the non-employee director compensation for 2013 was determined under the Board’s prior compensation policy, which was in effect from May 3, 2011 until May 1, 2013. The prior policy provided for the following cash payments: (i) an annual cash retainer of \$44,000, payable on a quarterly basis beginning July 1st of each year; (ii) a cash fee of \$2,000 for each board meeting attended in person and \$500 for each board or committee meeting attended via telephone; and (iii) a cash fee of \$1,000 for members of designated committees for each committee meeting that is not held within a day of a meeting of the full Board of Directors. The new Board Compensation Policy eliminated cash fees for meeting attendance.

Non-employee directors are reimbursed for local travel expenses or paid a fixed travel allowance based on the distance to the meeting, and reimbursed for other necessary business expenses incurred in the performance of their services as directors of the Company. In addition, directors are eligible to participate in the Company’s Non-Qualified Deferred Compensation Plan.

The Board Compensation Policy also provides for the grant of nonstatutory stock options to each non-employee director of the Company (the “*Outside Directors*”). Pursuant to the terms of the current Board Compensation Policy, each Outside Director is granted an option to purchase 25,000 shares of Common Stock upon his or her initial appointment to the Board of Directors. Thereafter, each year, each Outside Director receives an additional option grant to purchase 25,000 shares, upon re-election at the Annual Meeting. Outside Director options have an exercise price equal to the closing price of Common Stock on the date of grant, vest monthly over a period of one year, and have a seven-year term.

Non-Employee Director Stock Ownership Guidelines

In February 2013, the Company adopted a policy that requires each director to own a minimum number of shares of the Company's common stock equal to a value of \$200,000 to help demonstrate the alignment of the personal interest of the directors with the interests of shareholders. The shares counted toward the ownership guidelines include shares owned directly and indirectly, provided there is an economic interest in the shares. For current directors, these ownership levels must be attained within five years from the date the guidelines were adopted. New directors would have five years from appointment to meet the minimum stock ownership level. Three of the non-employee directors have met the ownership requirement; the remaining non-employee directors have until February 2018 to achieve the ownership requirement.

John B. Goodrich, Ronald Nersesian and Nickolas Vande Steeg are the current members of the Company's Compensation Committee. In May 2013, Mr. Nersesian replaced Mr. Hart on the Compensation Committee. Messrs. Goodrich, Hart and Vande Steeg were members of such committee during the 2012 fiscal year. None of our executive officers serves on the board of directors or compensation committee of a company that has an executive officer that serves on our Board of Directors or the Compensation Committee.

Compensation Discussion and Analysis

This section of the proxy statement describes the Company's compensation practices and policies with respect to its Named Executive Officers.

Roles and Responsibilities

The Compensation Committee of the Board of Directors (the "**Compensation Committee**") reviews and recommends the general compensation practices of the Company, including the compensation plans and specific compensation levels for executive officers of the Company. The Compensation Committee engaged Compensia, Inc. ("**Compensia**") as its independent compensation consultant to advise it on matters related to executive compensation. Compensia provides independent expertise in executive compensation issues including competitive market pay analysis for executives, advice on executive pay practices as well as peer group selection.

The scope of Compensia's engagement includes the review and analysis of the Company's compensation for the Named Executive Officers, and the review of the Company's compensation peer group. The terms of Compensia's engagement include reporting directly to the Compensation Committee and to the Compensation Committee chairman. Compensia also coordinates with the Company's management for data collection and job matching for the Named Executive Officers. Compensia does not provide any other services to the Company, and the Compensation Committee is not aware of any conflict of interest that exists that would prevent Compensia from being so independently engaged.

Compensia provided compensation benchmark data directly to the Compensation Committee as well as to members of the Company's management team. The chief executive officer utilized the benchmark data provided by Compensia to assist in the determination of compensation recommendations for the Named Executive Officers, excluding himself, to the Compensation Committee and the Board of Directors. The Compensation Committee utilized the benchmark data provided by Compensia to assist in determining compensation for the Named Executive Officers.

The Compensation Committee believes that it is important to involve the full Board of Directors in the analysis and approval of compensation for executive officers, and may consult with

members of management and other members of the Board of Directors. The Compensation Committee also engages in discussion of compensation matters during board meetings.

Compensation Program Objectives

The guiding principles of the Company’s compensation program objectives are to:

- Establish compensation that is competitive, rewards performance and maintains internal equity;
- Attract, motivate and retain highly talented executive officers by providing compensation opportunities that are competitive and reward for performance; and
- Align interests of executives with shareholders by creating long-term shareholder value.

The main elements of the Company’s compensation policies for its Named Executive Officers, and the purposes for each element, are summarized in the table below.

Element	Form of Compensation	Purpose
Base Salary	Cash	Designed to attract and retain highly talented executives by providing pay opportunities that are competitive in the market and reward performance
Short Term Incentives (Bonus)	Cash	Designed to motivate executives to achieve business goals and provide financial incentives when the Company and business areas meet or exceed annual goals and targets established under the incentive plan
Long Term Incentives (Equity)	Stock options, restricted stock units	Designed to align the interests of executives with the interests of shareholders by motivating our executives to achieve long term shareholder value

Setting Compensation

The Company’s current practice is to combine a mixture of compensation elements into its compensation policies to balance short term goals with the long term performance of the Company. The Company uses incentive cash bonus programs, which focus on yearly operating results, and equity grants such as stock options and restricted stock units, which have long term vesting cycles that derive value from increases in the Company’s share price over time. The Company does not have a policy on the allocation percentages between short term and long term compensation elements. However, the Company makes determinations of the type and size of awards relative to the awards made to similarly situated executives in the Company’s compensation peer group.

In making compensation decisions for the Named Executive Officers, the Company’s compensation philosophy is to target base salaries for our Named Executive Officers generally within a competitive range of the market median of our compensation peer group and the Radford survey data for similar situated executives in the compensation peer group. Although the Company targets its base salary compensation within a competitive range of the market median, the actual positioning will include other factors such as business results, internal equity, individual experience and individual performance. Our incentive programs are designed to reward our Named Executive Officers for

exceptional performance. For example, a significant portion of the compensation for the Named Executive Officers is variable. Generally, this means zero to smaller bonuses and lower overall compensation in years of low performance and higher bonuses and higher compensation in years of exceptional performance, which is reflective of the performance achieved.

The Compensation Committee uses Compensia data from our compensation peer group, which is comprised of technology companies that are similar to the Company, as well as Radford compensation survey data to benchmark our total direct compensation package for our executives, including base salary, incentive cash bonus program and equity incentive compensation. Radford provides compensation market intelligence, and is widely used within the high technology industry. The Radford executive survey includes input from over 700 companies. A subset of the Radford high tech executive compensation data, based on companies with similar sized revenues, was used in order to analyze the compensation for our executives. The specific names of the companies in the subset are not available to us. The survey data supplements the compensation peer group data and provides additional information for our Named Executive Officers and other vice president positions for which there is less public comparable data available.

Competitive Market Data

The Company's compensation peer group consists of technology companies that are similar to the Company in terms of revenue, market capitalization, physical location, and the number of employees. Based on recommendations from Compensia, the Company used the compensation peer group shown in the table below to assist with the determination of compensation for the Named Executive Officers. In developing the peer group, Compensia generally observes the following guidelines with respect to selecting comparable companies: for peers within a similar industry, within a range of 0.5x to 2.0x of the Company's revenue, and within a range of 0.3x to 3.0x of the Company's market capitalization. The financial information in the table below, provided by Compensia, is based

on financial data from S&P's Research Insight available as of October 1, 2013. The information displayed for market capitalization is as of October 16, 2013.

* For our prior fiscal year, our peer group included Novellus Systems, which was removed as a result of its acquisition by Lam Research. Each of Brocade Communications, Citrix Systems and Juniper Networks were added to our peer group from the last fiscal year as each was determined to be appropriate for purposes of peer group comparisons in terms of such factors as business complexity, financial characteristics and market valuation.

- (1) Based on the most recent fiscal year end information available at the time of Compensia's compilation of peer group data during the Fall of 2013. The Company's employee information is taken from the Company's annual report on Form 10-K for the 2012 fiscal year.

Discussion of Compensation Elements

Base Salary

Using the salary survey data supplied by Compensia, the Compensation Committee establishes base salaries for each Named Executive Officer within a range of salaries of the Company's compensation peer group. In addition, the base salaries of the Named Executive Officers, including the chief executive officer, may be adjusted by the Compensation Committee after consideration of factors such as the relative performance of the Company, the performance of the business unit or function for which the executive is responsible, and the individual's past performance and future potential.

The Compensation Committee believes that the compensation of the chief executive officer should be primarily influenced by the overall financial performance and total shareholder return of the Company. The Compensation Committee also believes that the compensation of the chief executive

officer should be established within a range of compensation provided to similarly situated chief executive officers of the Company's compensation peer group, as adjusted by the Compensation Committee's consideration of the particular factors influencing the Company's performance. A portion of the chief executive officer's compensation package is established as base salary and the balance is variable and consists of an annual incentive cash bonus, stock option grants and/or restricted stock units.

In May 2013, the Board of Directors and the Compensation Committee approved increases in the annual base salaries for each of the Named Executive Officers, including the chief executive officer. The Board of Directors and the Compensation Committee considered the Company's performance and percentile rankings compared to its compensation peer group, the current risks and challenges facing the Company, as well as the individual qualifications, skills and past performance of the Named Executive Officers in determining the amount of increases for the base salaries of the executives. Compared to its compensation peer group, the base salaries of the Company's Named Executive Officers is generally at or below the median of its compensation peer group.

Short Term Incentives (Bonus Program)

The Company's short term cash bonus incentive program is designed to motivate executives to achieve business goals and provide financial incentives when the Company and business areas meet or exceed annual goals and targets established under the incentive plan. Senior-level managers, executives of the Company, including Named Executive Officers, and certain other individual employees participate, upon approval by the chief executive officer, or by the Board with respect to the chief executive officer, in the Company's Annual Management Incentive Plan ("*MIP*"). The MIP is a cash bonus plan that is designed to motivate our executives and other participants to achieve annual and quarterly business goals. At the time of this proxy filing, the 2014 MIP performance metrics had not yet been approved by the Board of Directors.

Cash bonuses under the MIP are based upon an eligible percentage of each participant's base salary within a range of target incentive opportunities. For the Named Executive Officers, payments earned under the 2013 MIP depended upon the Company's, or a combination of the Company's and each sector's, achievement of certain levels of operating income with certain minimum thresholds for revenue, and operating margin, established by the Board of Directors. The amount of payments under the MIP to each Named Executive Officer is dependent on the actual operating income results relative to the Named Executive Officer's operating income target. "*Operating Income*", for the purposes of the MIP, means: (i) with respect to a sector or division, operating income for that sector or division; and (ii) with respect to the Company, operating income for the Company adjusted for amortization of intangibles, restructuring and infrequent charges. A sector is a grouping of divisions within the Company.

Quarterly incentive payouts for Named Executive Officers under the 2013 MIP were based on the achievement of the operating income targets described in the Management Incentive Plan table; an annual payout was based on full-year performance against operating income targets.

In 2013, each Named Executive Officer was eligible to receive 15% of his target incentive opportunity each quarter and the remainder after the close of the fiscal year. In that regard, if quarterly targets were paid out, they were not additive to the full year payout. It is possible for a Named Executive Officer to achieve quarterly targets for operating income and therefore receive quarterly payouts, but not achieve the annual target for operating income. In such a case, the Named Executive

Officer could receive a quarterly payout, but not receive an annual payout. Conversely, a Named Executive Officer could achieve the annual target and receive the full annual payout amount, but not receive all quarterly payouts if the quarterly targets for operating income were not met in each quarter. Participants are required to remain continuously employed through a payment date to be entitled to a payout for the applicable period.

The target incentive opportunities for the Named Executive Officers (other than the chief executive officer) are recommended by the chief executive officer of the Company and approved by the Board of Directors. The target incentive opportunities for the Named Executive Officers were 80% of the annual base salary for each executive for the 2013 fiscal year, except for Ms. Shepard, whose target incentive opportunity was 35% of her base salary. The target incentive opportunity for the Company's chief executive officer is 125% of his annual base salary, and was approved by the disinterested members of the Board of Directors. These target opportunities remained the same as the opportunities for the fiscal year 2012. Potential target incentive opportunities for the Named Executive Officers, including the chief executive officer, under the 2013 MIP could range from zero to 300% of the target incentive opportunity based upon achievement of operating income goals of the Company or a combination of Company and sector performance, as applicable, for such executives, and if threshold requirements for revenue and operating margin were met.

The actual incentive payouts to the Named Executive Officers (excluding Mr. Bahri who resigned from the Company in 2013) under the 2013 MIP ranged from 51% to 114% of each participant's target incentive opportunity, depending on how the Company and its sectors performed relative to the respective operating income targets, and whether threshold requirements were met for revenue and operating margin for the Company and its sectors, as shown in the Management Incentive Plan Table below.

The Management Incentive Plan Table below sets forth the 2013 MIP operating income targets, operating income results, and targets and actual incentive awards for each of the Named Executive Officers. The Management Incentive Plan table also sets forth the percentages of the incentive payouts, as a percentage of each participant's target incentive opportunity, for each Named Executive Officer for the 2012 and 2011 fiscal years. The targets, operating income results, and incentive payouts shown in the table below for Bahri, Berglund and Shepard were based on total Company targets and results. The operating income targets and results for each of Fosburgh, Harrington and Veneziano were based on both targets and results of the Company and of each such executive's sectors. The award columns for Fosburgh, Harrington and Veneziano were based 50% on total Company results and 50% based on each executive's respective sectors. The dollar targets and operating income are shown in millions while the awards are shown in thousands, rounded.

- (1) Mr. Berglund and Ms. Shepard's incentive awards were \$714,905 and \$64,778, respectively, or 72% of their target bonus opportunities because the Company met the annual threshold requirements for revenue and operating margin but the Company's total operating income performance was below target.
- (2) Mr. Bahri resigned from the Company effective June 3, 2013 and did not receive any incentive award for 2013.
- (3) Mr. Harrington's incentive award was \$161,188, or 51% of his target incentive opportunity because the Company met the annual threshold requirements for revenue and operating margin but the Company's total operating income performance was below target. Mr. Harrington's sector did not meet the annual thresholds for revenue and operating margin, but his sector's operating income performance met targets for the third and fourth quarters of 2013.
- (4) Mr. Veneziano's incentive award was \$293,251 or 114% of his target incentive opportunity because both the Company and his sector met their annual threshold requirements for revenue and operating margin and his sector's operating income performance was over target, even though the Company's total operating income performance was below target.
- (5) Mr. Fosburgh's incentive award was \$260,897 or 83% of his target incentive opportunity because both the Company and his sector met their annual threshold requirements for revenue and operating margin and his sector's annual operating income performance was near target, even though the Company's total operating income performance was below target.

The MIP formula is not a one to one ratio between the percentage by which the operating income target was exceeded and the percentage of bonus paid to the Named Executive Officers. The table below reflects the degree of difficulty required for each level of payout under the MIP, shown as the minimum percentage of growth in operating income versus the operating income for the prior year.

Incentive payouts under the MIP can range from zero to 300% of the executive's target opportunity, upon achievement of the required annual thresholds for revenue and operating margin, and the achievement of minimum operating income targets.

Long Term Incentives (Equity)

The Compensation Committee and the Board of Directors view equity awards such as stock options and restricted stock units as an important component of the Company's long term, performance-based compensation program. The value of a stock option or a restricted stock unit bears a direct relationship to the Company's stock price, and therefore, these awards are an incentive for executives, managers and other employees to create value for shareholders. Equity awards also help the Company retain qualified employees in a competitive market.

In February 2013, the Board of Directors adopted stock ownership guidelines for the Company's chief executive officer and directors to further align their respective interests with the interests of the Company's shareholders, and to further promote the Company's commitment to sound corporate governance. The guidelines require the chief executive officer to own a minimum number of Company common stock shares equal to a value of five times his or her annualized base salary. Directors are required to own a minimum number of common stock shares equal to a value of \$200,000. The number of shares necessary to meet the minimum ownership level may be accumulated during the first five years following adoption of the guidelines or, if later, during the first five years after becoming chief executive officer or a director, as applicable.

All stock option grants and restricted stock units to the Named Executive Officers are granted out of the Company's 2002 Stock Plan. Stock options are granted with an exercise price equal to the closing price of the Company's Common Stock on the date of grant.

Currently, stock options and restricted stock unit awards are granted on a semi-annual basis to the Named Executive Officers, based on individual performance, future potential, ability to influence the Company's long term growth and profitability, and importance to the Company's success. The amounts of the stock option grants and restricted stock unit awards are also intended to provide competitively sized grants and resulting total target compensation within a competitive range of the market median relative to our compensation peer group and Radford survey companies for similar roles and positions for each of the Named Executive Officers, taking into consideration business results, internal equity, experience and individual performance.

The Board of Directors may grant stock options or restricted stock units while the directors are in possession of material, non-public information. Due to the fact that the Board of Directors' regular meetings are timed to coincide with the preparation of the Company's quarterly financial results, option grants have and will occur shortly before an earnings release. The Compensation Committee or

the Board of Directors may also grant options at a special meeting, or by unanimous written consent, in special circumstances, such as to facilitate the hiring of a key executive.

In May, August and October of 2013 the Board of Directors, on recommendation from the Compensation Committee, approved merit grants of stock options and restricted stock units to the Named Executive Officers, including the chief executive officer. In May 2013, the Named Executive Officers, except for the chief executive officer, received stock option grants to purchase shares in amounts ranging from 16,200 to 30,000 at an exercise price of \$28.08 per share and restricted stock units in amounts ranging between 2,600 to 6,400 shares. In August 2013, Ms. Shepard received a 12,000 restricted stock unit grant. In October 2013, the Named Executive Officers, except for the chief executive officer and Mr. Bahri (who resigned as chief financial officer effective June 3, 2013), received stock option grants to purchase shares in amounts ranging from 8,000 to 40,000 at an exercise price of \$28.20 per share and restricted stock units in amounts ranging between 2,000 to 13,300 shares.

Based on the Board of Directors' and the Compensation Committee's evaluation of the chief executive officer, in May 2013, the Board of Directors approved an option to purchase 166,675 shares of the Company's Common Stock at an exercise price of \$28.08 per share, and 27,775 restricted stock units. In addition, in October 2013, the Board of Directors, upon recommendation from the Compensation Committee, approved an option for Mr. Berglund to purchase 215,000 shares of the Company's Common Stock at an exercise price of \$28.20 per share, and 70,000 restricted stock units.

The options granted to each of the Named Executive Officers in 2013 vest 50% after two years and ratably on a monthly basis thereafter such that the options become fully vested after four years. The vesting schedule was changed in 2013 from five years to four years to better align the Company with the most common market practice for stock option vesting. Upon any change in control, these options would become fully vested. The restricted stock units granted to each of the Named Executive Officers vest in full on the third anniversary of the grant date. Upon vesting, the restricted stock units may be settled by issuing the number of shares shown below in the "Grants of Plan-Based Awards" table, or by a cash payment equal to the fair market value of the shares on the vesting date, or a combination of shares and cash, at the discretion of the Company.

The grants to the Named Executive Officers are enumerated in the table entitled "Grants of Plan-Based Awards for the 2013 Fiscal Year."

Chief Executive Officer Stock Ownership Guidelines

In February 2013, the Company adopted a policy that requires its chief executive officer to own a minimum number of shares of the Company's common stock equal to a value of five times his or her annualized base salary to help demonstrate the alignment of the chief executive officer with the interests of shareholders. The shares counted toward the ownership guidelines include shares owned directly and indirectly, provided there is an economic interest in the shares. For Mr. Berglund, this ownership level must be attained within five years from the date the guidelines were adopted. As of March 2013, Mr. Berglund had achieved the required ownership level.

Other Compensation and Benefits, Including Perquisites and Retirement Benefits

The Company's Named Executive Officers are entitled to employee benefits generally available to all full time employees, subject to the satisfaction of certain eligibility requirements. These benefits include health, welfare and paid time off benefits generally available to all U.S. employees. In addition, employees, including the Named Executive Officers, are eligible to participate in the Company's 401(k) retirement plan. Participants in the 401(k) in general may receive up to \$2,500 per

year in matching Company contributions. In structuring these benefits, the Company provides an aggregate level of benefits that are comparable to those provided by similar companies. Certain of the Named Executive Officers also participate in the Company's Non-Qualified Deferred Compensation Plan, further discussed below under "Post-Employment Compensation." In addition, the Company pays for life insurance premiums on behalf of the Named Executive Officers, as part of the Company's general death benefits for its full time employees.

Say on Pay

Our Board of Directors and the Company's management value the opinions of our shareholders. The Company currently provides its shareholders with the opportunity to cast a vote on the Say on Pay proposal on an annual basis, until the next advisory vote on the frequency of such votes.

At the 2013 annual meeting of shareholders, approximately 92% of the votes cast on the Say on Pay proposal were in favor of our executive compensation program. The Board of Directors and Compensation Committee reviewed the results of the Say on Pay vote and in light of the substantial approval from shareholders of our executive compensation program, did not make any significant changes to the Company's executive compensation program as a result of such favorable Say on Pay vote. Accordingly, our Board of Directors recommends that you vote "FOR" Item II at the Annual Meeting. For more information, please see "Item II, Advisory Vote on Approving the Compensation for Our Named Executive Officers" in this proxy statement.

Risk Assessment

In setting compensation, our Compensation Committee also considers the risks to our shareholders, and the Company as a whole, arising out of our compensation programs. The Company's management team has assessed the risk profile of our compensation programs. Their review considered risk-determining characteristics of the overall structure and individual components of our Company-wide compensation program, including our base salaries, incentive plans and equity plans. The management team provided its report of the findings to the Board of Directors for its review and consideration. Following this assessment, the Board of Directors concurred with management's conclusions that the Company's compensation policies were not reasonably likely to have a material adverse effect on the Company. For example,

- **Balance of Compensation:** Across the Company, individual elements of our compensation program include base salaries, incentive compensation, and for certain of our employees, equity-based awards. By providing a mix of different elements of compensation which reward both short-term and long term performance, the Company's compensation programs as a whole provide a balanced approach to incentivizing and retaining employees, without placing an inappropriate emphasis on any particular form of compensation.

- **Objective Company Results and Pre-established Performance Measures Dictate Annual Incentives:** Under the Company's cash incentive plans, payments are subject to the satisfaction of specific annual performance targets established by our Board of Directors. These performance targets are directly and specifically tied to revenue and operating income performance for the Company and/or divisions for the applicable fiscal year. Profit sharing payments are made quarterly based on actual Company profits, and not estimated profits.

- **Use of Long Term Incentive Compensation:** Equity-based long term incentive compensation that vests over a period of years is a key component of total compensation of our executive employees.

This vesting period encourages our executives to focus on sustaining the Company's long term performance. These grants are also made annually, so executives always have unvested awards that could decrease significantly in value if our business is not managed for the long term.

- **Internal Processes Further Limit Risk:** The Company has in place additional processes to limit risk to the Company from our compensation programs. Specifically, payroll programs and financial results upon which incentive compensation payments are based are subject to regular review and audit and our human resources executives meet periodically with our internal audit personnel to review various controls in place with respect to our compensation programs. In addition, the Company engages an external compensation consulting firm for design and review of our compensation programs, as well as external legal counsel to assist with the periodic review of our compensation plans to ensure compliance with applicable laws and regulations.

Post-Employment Compensation

Deferred Compensation

The Company has adopted a Non-Qualified Deferred Compensation Plan (“*DCP*”) in which certain employees, officers and members of the Board of Directors may participate. Participants in the DCP may elect to defer a portion of their salary, bonus, commissions or director fees in accordance with the terms of the DCP. Participation in the DCP is voluntary. A participant in the DCP may defer a minimum of 5% of the participant’s base salary and a maximum of 90% of the participant’s base salary and 100% of the participant’s bonus, commissions or director’s fees.

The Company has not made any contributions to the DCP on behalf of the members of the Board of Directors or the Named Executive Officers or directors, even though the Company has the ability to do so under the terms of the DCP.

Contributions by participants are held in an irrevocable grantor trust for the benefit of the participants, and are subject to claims by the Company’s general creditors. Upon enrollment in the DCP, participants may choose from a selection of measurement funds in which to place their contributions. The DCP’s measurement funds are similar to the funds available to employees who participate in the Company’s 401(k) retirement plan. Participants may elect to receive withdrawals from the DCP in the form of scheduled distributions, retirement benefits, or in the event of a change in control, as defined in the DCP. The DCP also provides for distributions in the event of a participant’s termination of employment, disability or death. In addition, participants may request withdrawals from the DCP in the event of a severe financial hardship.

The table below shows contributions to the DCP by, or on behalf of, each of the Named Executive Officers during the fiscal year ended January 3, 2014.

- (1) The amount of each Named Executive Officer's contribution, if any, to the DCP is included in the Summary Compensation Table for each respective officer for the fiscal year in which such compensation was earned.
- (2) Mr. Bahri resigned his position as Chief Financial Officer of the Company effective June 3, 2013.

Potential Payments on a Change in Control

The Company's Board of Directors approved a standard form of change in control and severance agreement for executive officers in 2003, and modified this form in 2008 to comply with Section 409A of the Code. All of the Named Executive Officers, including the chief executive officer, are parties to change in control and severance agreements with the Company.

The standard form of agreement provides that each of the executive's then-unvested stock options will vest upon a change in control (as defined in the agreement). The standard agreement also provides that, if the executive's employment is terminated other than by reason of a Nonqualifying Termination (as defined in the agreement) within the period commencing with the change in control and ending one year following the change in control, (i) the executive shall receive a severance payment equal to one year of base salary plus the highest of the executive's target bonus for the fiscal year in which the change in control occurs, or in which the termination occurs, or the average of the executive's bonus for the three years preceding the termination (each calculated in accordance with the terms of the agreement), (ii) the Company shall continue to provide the executive with medical and other insurance for a period of one year following the date of termination of employment on the same basis as provided prior to termination, and (iii) the executive may exercise any then-outstanding stock options for a period of one year following the date of termination of employment, unless such options expire earlier. Such executive will also be entitled to a pro rata portion of the executive's target bonus for the year in which the termination of employment occurs (or if greater, a pro rata portion of the executive's projected bonus for the year based on quarterly financial performance).

In the event that the benefits payable under the change in control and severance agreement constitute "parachute payments" within the meaning of Section 280G of the Code and would be subject to the excise tax imposed by Section 4999 of the Code ("*Excise Tax*"), then the executive's benefits under the change in control and severance agreement shall be either: (i) delivered in full, or (ii) delivered as to such lesser extent as would result in no portion of such benefits being subject to the

Excise Tax, whichever of the foregoing amounts results in the receipt by the executive on an after-tax basis, of the greatest amount of benefits. The foregoing shall take into account the applicable federal, state and local income taxes and the Excise Tax, notwithstanding that all or some portion of such benefits may be taxable under Section 4999 of the Code. None of the change in control and severance agreements provide for a tax “gross-up” obligation by the Company in the event that any Excise Tax becomes payable by a Named Executive Officer.

The foregoing description of the Change in Control and Severance Agreements is qualified in its entirety by the form of change in control and severance agreement filed as exhibit 10.13 to the Company’s Annual Report on Form 10-K filed on March 2, 2009.

The Board of Directors evaluated a variety of factors that would constitute triggering events for executives and determined that those factors included in the form of change in control and severance agreement were appropriate.

The table below sets forth the estimated benefits that each respective Named Executive Officer would receive under his form of change in control severance agreement. The calculation of the estimated payments described in the table is based upon the assumption that a change in control event occurred on January 3, 2014, and that each Named Executive Officer’s employment terminated upon or immediately following such event. Mr. Bahri was not included in the table below because he resigned from the Company effective June 3, 2013.

All unvested stock options for the Named Executive Officers listed below will immediately vest upon the occurrence of a change in control event, as that term is defined in each named executive officer’s change in control and severance agreement. The amounts shown below reflect the aggregate number of shares underlying each executive’s unvested stock options that would have vested if a change in control event had occurred on January 3, 2014. In addition, under the terms of the Company’s 2002 Stock Plan, if the then unvested restricted stock units for the Named Executive Officers were assumed by an acquiring company, and the Named Executive Officers were terminated following a change in control, the restricted stock units would immediately vest.

- (1) The incentive bonus amount represents the amount of bonus accrued under the MIP as of January 3, 2014.
- (2) Under the Company’s change in control and severance agreement, each Named Executive Officer is entitled to receive the highest of the target bonus for the fiscal year in which the change in control occurs or in which the termination occurs, or the average of the executive’s bonuses for the three years preceding the termination. For

each Named Executive Officer, the amounts shown are the averages of the bonuses for the prior 3 years for such executives.

- (3) The amounts shown in this column represent the market value of the unvested options on January 3, 2014, less the exercise price of such options. The closing price of the Company's common stock on January 3, 2014 was \$34.57.
- (4) The aggregate market value of the unvested portion of the restricted stock units for each Named Executive Officer was calculated by multiplying the number of unvested shares by the closing price of the Company's common stock on January 3, 2014, which was \$34.57.

Chief Executive Officer

In addition, Mr. Berglund is eligible to receive certain severance benefits pursuant to a letter of employment dated March 17, 1999. In the event of an involuntary termination, or upon his disability or any termination other than for cause, Mr. Berglund is eligible to receive 12 months severance pay at an amount equal to his base salary at the date of separation, plus one half of his annual bonus accrued to the date of separation.

An "Involuntary Termination" under the letter of employment means: (i) without Mr. Berglund's consent, his assignment to any duties or the significant reduction of his duties, either of which is inconsistent with his position or title with the Company and responsibilities in effect immediately prior to such assignment, or his removal from such position and responsibility, or a reduction in his title; (ii) a greater than 10% reduction by the Company in Mr. Berglund's base compensation as in effect immediately prior to such reduction; provided, however, that such reduction shall not apply if substantially all executive officers of the Company agree to a similar reduction in base compensation; or (iii) any purported termination of Mr. Berglund by the Company (other than a voluntary termination initiated by Mr. Berglund) which is not effected for disability or for cause.

Mr. Berglund would not receive severance benefits under the letter of employment if he: (i) is convicted of a felony; (ii) commits a willful act which constitutes gross misconduct and which is injurious to the Company and which is not cured within 30 days after written notice of such breach is given to Mr. Berglund by the Board of Directors; or (iii) continuously and repeatedly refuses to abide by the reasonable directions of the Board of Directors. The description of Mr. Berglund's employment letter is qualified in its entirety by the text of the letter of employment dated March 17, 1999, which is filed as exhibit 10.67 to the Company's Annual Report on Form 10-K for the fiscal year ended January 1, 1999.

The table below sets forth the estimated severance payments to Mr. Berglund upon an involuntary termination, disability or a termination other than for cause under the letter of employment dated March 17, 1999. The amounts shown assume that an involuntary termination event occurred on January 3, 2014. Upon termination of Mr. Berglund's employment on or following the occurrence of a change in control event, Mr. Berglund would be entitled to the severance amount set forth below in addition to the amount described in the table above.

Death Benefits

The Company provides certain death benefits generally to its full time employees, including to the Named Executive Officers. In the event of the death of a Named Executive Officer, the following payments and benefits would become payable in a lump sum or provided to such Named Executive Officer's estate (unless otherwise noted): (i) payment of six months' base salary to the surviving spouse/dependents of the Named Executive Officer, (ii) with respect to equity awards granted on or after July 30, 2012, vesting of those awards that would have vested within the two years following the death of the Named Executive Officer but for such death, (iii) payout under the life insurance policy (with base coverage of 2 times base salary) on the Named Executive Officer, (iv) 12 months' of continued health insurance coverage for the surviving spouse/dependents of the Named Executive Officer, and (v) a pro rata payment under the MIP based on the date of the Named Executive Officer's death. The table below sets forth the value of the foregoing, assuming that the triggering event occurred on January 3, 2014:

- (1) The market value of the accelerated portion of the restricted stock units and stock options for each Named Executive Officer was calculated by using the closing price of the Company's Common Stock on January 3, 2014, which was \$34.57.
- (2) Life insurance payouts are based on the Named Executive Officer's "benefit salary" which is defined as his or her base salary as of September 1st of the previous fiscal year. Mr. Berglund's life insurance payout is capped at \$1,100,000.
- (3) Health benefits reflect twelve months of COBRA premiums for the Named Executive Officer's spouse and/or dependents.
- (4) The incentive bonus amount represents the amount of bonus accrued but unpaid under the MIP as of January 3, 2014.
- (5) Named Executive Officers are also entitled to additional death benefits due to a death caused by an accident while working for the Company or while traveling on Company business. Officers and vice presidents of the Company are entitled to an additional \$500,000 if they die while travelling on Company business. An employee of the Company who dies in an accident while working for the Company will be entitled to receive an additional 2x his or her base salary.

Tax and Accounting Treatment; Other Information.

Tax and Accounting Treatment

Section 162(m) of the Code generally limits the deductibility by the Company of compensation in excess of \$1,000,000 paid to certain executive officers to the extent the compensation is not considered performance-based. The Compensation Committee and the Board of Directors believe that

it is essential to reward and motivate executives based on the assessment of the individual's performance, the current market conditions and the individual's contribution to the success of the Company. The Compensation Committee and the Board of Directors also believe that preserving the Company's future tax deductions under Section 162(m) is beneficial to the Company and its shareholders. However, the Compensation Committee and the Board of Directors reserve the right to award compensation to executive officers that may not be deductible under Section 162(m) where such compensation furthers overall compensation objectives and is in the best interest of the Company's shareholders.

A portion of the compensation paid by the Company to Messrs. Berglund, Harrington, Veneziano and Fosburgh for the 2013 fiscal year may not be fully deductible for federal income tax purposes if such compensation does not satisfy the requirements of performance-based compensation under Section 162(m).

To the extent that non-performance based compensation received by certain executive officers in a future year would exceed \$1,000,000, the amount in excess of \$1,000,000 may not be deductible by the Company.

The Audit Committee has discussed with Ernst & Young those matters required to be discussed by Auditing Standard No. 16, “Communications with Audit Committees” issued by the Public Company Accounting Oversight Board (“**PCAOB**”). Ernst & Young has provided the Audit Committee with the written disclosures and the letter required by the PCAOB. The Audit Committee has also discussed with Ernst & Young its independence from management and the Company and has also determined that Ernst & Young’s provision of non-audit services (such as tax-related services) to the Company and its affiliates is compatible with maintaining the independence of Ernst & Young with respect to the Company and its management.

Based on the Audit Committee’s discussion with management and the independent auditors, and the Audit Committee’s review of the representation of management and the report of the independent auditor to the Audit Committee, the Audit Committee recommended that the Board of Directors include the audited consolidated financial statements in the Company’s annual report on Form 10-K for the fiscal year ended January 3, 2014.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The Company reviews all relationships and transactions between the Company, on the one hand, and our directors, executive officers or their immediate family members, on the other hand, to determine whether such persons have a direct or indirect material interest. The Company's legal staff is primarily responsible for the development and implementation of processes and controls to obtain information from the directors and executive officers with respect to related person transactions and for then determining, based on the facts and circumstances, whether a related person has a direct or indirect material interest in the transaction with the Company. On an annual basis, all directors and executive officers must respond to a questionnaire requiring disclosure about any related person transactions, arrangements or relationships (including indebtedness). As required under SEC rules, any transactions with the Company that are determined to be directly or indirectly material to a related person are disclosed in the Company's applicable SEC filings.

In addition, certain aspects of such types of transactions are the subject of the Company's Business Ethics and Conduct Policy (the "**Policy**"). The Policy applies to all of the Company's employees, directors and officers and is available in the "Investors" section of the Company's website at <http://investor.trimble.com> under the heading "Corporate Governance — Governance Documents." Pursuant to the Policy all employees must disclose to the Company's Compliance Officer all actual or apparent conflicts of interests and the Company's Senior Officers (which is defined in the Policy as the Company's chief executive officer, chief financial officer, corporate controller and any other person performing similar functions) must obtain prior written approval from the compliance officer or the chairman of the Audit Committee for any apparent conflicts of interest. The Company's compliance officer is the Company's general counsel, the chairman of the Audit Committee in the general counsel's absence, or such other person as the Board of Directors may designate.

In determining whether to approve or ratify a related party transaction, the compliance officer may consider all relevant facts and circumstances, including the following factors:

- the nature of the related person's interest in the transaction;
- the material terms of the transaction, including the amount involved and type of transaction and whether the terms are at least as favorable to the Company as those available from non-related parties;
- the importance of the transaction to the related person and to the Company;
- whether the transaction would impair the judgment of a director or executive officer to act in the best interest of the Company and its shareholders; and
- any other matters the Audit Committee or other committee, as applicable, deems appropriate.
