

Avison Young Deploys Trimble's ManhattanONE FlexiDesk and Mobile Booking Modules to Support Return-to-Office Strategy

October 22, 2020

Commercial Real Estate Firm Harnesses Technology to Help Deliver a Safe Blend of Remote Working and Dynamic Office Space

SUNNYVALE, Calif., Oct. 22, 2020 /PRNewswire/ -- Trimble (NASDAQ: TRMB) announced today that Avison Young, a global real estate advisor, has deployed the FlexiDesk and Mobile Booking modules of Trimble's ManhattanONE™ software suite to support its return-to-office strategy in the UK.

Avison Young is a long-standing user of the ManhattanONE Space Scheduling module, which enables the firm to optimize the reservation, utilization and management of over 110 meeting rooms and associated services. As Avison Young carries out a phased reopening of its 17 offices in the UK, ManhattanONE is being used to help protect the wellbeing of employees by allowing the firm to practice safe distancing with enhanced control over desk access and configuration, touch-free QR code check-in and contact tracing with FlexiDesk and Mobile Booking.

"After successfully working together for a number of years, it was natural for us to engage Trimble's help in safely returning our employees to the office," said Jason Shaw, IT director for the UK and Europe at Avison Young. "Although distancing guidelines only allow us to accommodate approximately 25 percent occupancy, mandatory pre-booking through the FlexiDesk module and the mobile app will allow us to allocate those limited workspaces fairly and safely. And, if distancing guidance changes in the future, we can easily make adjustments in the system to release more available desks."

To deliver a safe working environment and provide Covid-19 'track-and-trace' information, businesses need to know which employees are on-site and where they are seated at all times, if required. "FlexiDesk's QR code check-in allows us to accurately capture and store track-and-trace data should one of our employees fall ill and we need to find out who they may have come into contact with," added Shaw.

Avison Young is also taking steps to keep its employees safe by minimizing unnecessary movement around the workplace. Access to interactive floor plans in the mobile app will enable users to locate colleagues and book safe desks.

"Employee wellbeing is at the heart of Avison Young's 'people first' approach to business continuity and the ManhattanONE FlexiDesk and Mobile Booking modules will be invaluable tools to leverage and help support their return-to-office strategy," said Suresh Sundaram, general manager of Trimble Real Estate.

About Avison Young

Avison Young creates real economic, social and environmental value as a global real estate advisor, powered by people. As a private company, our clients collaborate with an empowered partner who is invested in their success. Our integrated talent realizes the full potential of real estate by using global intelligence platforms that provide clients with insights and advantage. Together, we can create healthy, productive workplaces for employees, cities that are centers for prosperity for their citizens, and built spaces and places that create a net benefit to the economy, the environment and the community. Avison Young is a 2020 winner of the Canada's Best Managed Companies Platinum Club designation, having retained its Best Managed designation for nine consecutive years.
