INDEPENDENT ACCOUNTANTS' REPORT

We were engaged to audit the financial statements and supplemental schedules of the Trimble Navigation Savings and Retirement Plan (the Plan) as of December 31, 1996 and 1995, and for the years then ended, and as listed in the accompanying table of contents. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Plan's management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Plan as of December 31, 1996 and 1995, and the changes in net assets available for plan benefits for the years then ended in conformity with generally accepted accounting principles.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental information included in Schedule G - Financial Schedules (IRS Form 5500) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The fund information in the statement of changes in net assets available for plan benefits is presented for purposes of additional analysis rather than to present the changes in net assets available for plan benefits for each fund. The supplemental information and fund information have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the financial statements taken as a whole.

TRIMBLE NAVIGATION
SAVINGS AND RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 1996 and 1995

Note 1 - The Plan and its significant accounting policies:

The following description of the Trimble Navigation (the Company) Savings and Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan that was established in 1988 by the Company to provide benefits to eligible employees. The Plan covers all full-time employees of the Company who are not covered by a collective bargaining agreement.

The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration -

The Company contracted with American Stock Transfer & Trust Company to act as the trustee as of October 1994. The Company has appointed an Administrative Committee (the Committee) to control the operation and administration of the Plan. A third-party administrator, appointed by the Committee, processes and maintains the records of participant data. During 1995, the Company had contracted with Preferred Benefits Corporation to act as third-party administrator. Effective January 1996, the Company contracted with Connecticut General Life Insurance Company (CIGNA) to act as third-party administrator and trustee. Substantially all expenses incurred for administering the Plan are paid by the Company.

Investments -

Investments of the Plan at December 31, 1995 were held by American Stock Transfer & Trust Company and invested in various mutual funds, guaranteed investment contracts, and the Company's common stock, based solely upon instructions received from participants.

Investments of the Plan at December 31, 1996 are held by CIGNA and invested in CIGNA general account contract and pooled separate accounts, Fidelity funds and the Company's common stock, based solely upon instructions received from participants.

The Plan's investments in CIGNA are valued at fair value as of the last day of the Plan year, as measured by quoted market prices or as reported by CIGNA for pooled separate accounts.

For the Plan's investment in guaranteed investment contracts, the contracts were credited with interest at the rate specified in the contract, which ranged from 6.5% to 8.97% for the year ended December 31, 1995.

Vesting -

Participants are immediately vested in their salary deferral, rollover contributions, related earnings, and employer's matching contributions.

Income taxes -

The Plan has not been amended since receiving a favorable determination letter dated November 28, 1995. The Committee believes the Plan continues to qualify under the applicable requirements of the Internal Revenue Code and related state statutes, and is exempt from federal income and state franchise taxes.

Estimates -

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Statement of Position 94-4 -

The Company has adopted Statement of Position 94-4, "Reporting of Investment Contracts Held by Health and Welfare Benefit Plans and Defined Contribution Pension Plans" (SOP 94-4), for the Plan year beginning January 1, 1996. Under the new reporting requirements, investment contracts without fully benefit-responsive features are reported at fair value. The adoption of SOP 94-4 did not have a material financial impact on the Plan.

Note 2 - Participation and benefits:

Employee contributions -

Participants may elect to have the Company contribute a percentage, from 1% to 18%, of their pre-tax compensation up to the amount allowable under current income tax regulations. Participants who elect to have the Company contribute a portion of their compensation to the Plan agree to accept an equivalent reduction in taxable compensation.

Participants are also allowed to make rollover contributions of amounts received from other qualified employer-sponsored retirement plans. Such contributions are deposited in the appropriate investment funds in accordance with the participant's direction and the Plan's provisions.

Employer contributions -

The Company is allowed to make matching contributions as defined in the Plan and as approved by the Board of Directors. The Company matches 100% of each participant's contribution up to a maximum of \$100 per month and a maximum of \$1,200 per year. Contributions for the years ended December 31, 1996 and 1995 were approximately \$980,000 and \$820,000, respectively.

Participant accounts -

Each participant's account is credited with the participant's contribution, Plan earnings and an allocation of the Company's contribution, if any. Allocation of the Company's contribution is based on the participant contributions.

Payment of benefits -

Upon termination, the participant or beneficiary will receive benefits in a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Loans to participants -

The Plan allows participants to borrow not less than \$1,000 and up to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the participant's vested balance. Such loans bear interest at the available market financing rates and must be repaid to the Plan within a five year period, unless the loan is used for the purchase of a residence in which case the maximum repayment period is ten years. The specific terms and conditions of such loans are established by the Committee.

Note 3 - Party in interest transactions:

As allowed in the Plan, participants may elect to invest a portion of their accounts in the common stock of the Company. Aggregate investment in Company common stock at December 31, 1996 and 1995 was as follows:

Date	Number of shares	Fair value	Cost
1996	198,746	\$2,285,583	\$3,390,936
1995	157,846	\$2,939,887	\$2,793,892
